

POWER WEEDER - BACK ROTARY

FARM MECHANISED EQUIPMENT

Suitable for multiple mechanized operations such as weeding, tilling, ditching and soil preparation in agricultural and horticultural crops and plantations.

Technical Description

CODE	ARD/BRR
Engine Type	4-Stroke Diesel Engine
Displacement (cc)	
Engine Power (hp/kW @ rpm)	9.0/6.3@3600
Speed	4 Forward, 2 Reverse
Fuel Tank Capacity (Ltr.)	5
Engine Oil Capacity (Ltr.)	1.65
Gearbox Oil Capacity (Ltr.)	
Number of Blades	40 pcs 10 sets)
Tilling Width (mm)	700 - 1350
Tilling Depth (mm)	≥150
Starting System	Electric Start
Required Battery Capacity	
Battery Supplied with Machine	Without Battery
Dimensions (L x W x H) (mm) (approx)	1500x570x840
Net Weight (kg) (Approx.)	(220)

Features

- Powerful Diesel Engine with Electrics
- Manual Start
- 6 Gears direct coupled gear box, 4F/2R, with differential gear box.
- With 360 degree Rotatable long handle
- With back rotary assy (1f,2r/1set of 18 dryland-blade/1 set of 10 ditching blade/rear wheel).
- With 40pcs dryland blade for entral rotary
- With 400-8 solid Tyre
