Ludhiana, INDIA 141015

Skills

- Production
- Manufacturing Engineering
- Tooling sheet instruction
- Process Planning
- SOP
- Process Standardization
- Project Documentation

Education

01/2007

Bachelor Of Technology:

Mechanical

RIMT ENGINEERING COLLEGE

MANDI GOBINDGARH, PUNJAB

ATIT SHARMA

Summary

14+ year of experience as Production Engineer ,Cutting tools Section Engineer with expertise in manufacturing engineering and process working at Hero Steel Limited. Proven track record in optimizing production processes and ensuring quality compliance.

Experience

HERO STEEL LIMITED - PRODUCTION ENGINEER

LUDHIANA

09/2020 - Current

- Planning of daily production for slitter machine as per specification on cold rolled slitter machine
- Daily Checking WIP and Cold rolled Process Schedule for execution of coil for Final Finishing
- Testing of Material in Laboratory as per given Specification for given grade
- Quality Checking of CRCA coil as per given specification
- Production Hours booking & rejection booking in sap for Shift wise Production
- Daily Production Entry in Production Log book Sheet
- Monitoring of Production operations to ensure compliance with quality standards.
- Supervised daily operations ensuring that tasks are completed according to schedule.

ANERI CONSTRUCTION PVT LTD - EXECUTIVE

LUDHIANA

10/2019 - 09/2020

- Main Line Welding and Stringing process and controlling parameters in QCM software
- Maintaining Documentation of all process and check test results
- Maintaining quality records for various process of pipe line
- Shot blasting and Coating process follow up and peel test .
- Monitoring Trenching and Lowering of pipes
- Tie-in Joint checking of pipe and checking for back filling

ALSTOM INDIA LIMITED - PROCESS ENGINEER

VADODARA, INDIA

05/2011 - 08/2015

- Implemented Manufacturing Process by Study manufacturing drawings
- Cycle time study of various process, and doing trials to reduce cycle time of various process and checking bottlenecks of process
- Selecting and developing standard work instruction for evaluating the process
- Prepare Quality Package Document named Protocol

- To attend the validation meeting with the Planning, Machine Shop, and Quality departments.
- Worked on Preparing Quality Package Document Termed Protocol and Control Plan for Components
- Worked on IE vs
- Tendering by monitoring & analyzing the hours spent for Actual production Hours And tendering hours of Component

ANDRITZ HYDRO INDIA LIMITED - MANUFACTURING TOOLING ENGINEER

FARIDABAD

09/2008 - 04/2011

- Advance Study of Drawings for tools Selection/Parameters for component on machines like Horizontal Machining centre, Vertical Machining Centre, Turning Lathes and Vertical Turning Lathe
- Checking Feasibility of tools in tool Crib and if not then procuring tools from outside parties
- Preparing list of tools and hand over to the tool crib for tool offset on tool pre-setter machine
- Monthly targets to achieve cycle time reduction by use of tools development through KAIZEN
- Participated in reducing cycle time reduction in team for KVNA UPPER METAL through kaizen

MUNJAL SHOWA LIMITED - Graduate Engineer Trainee

GURGAON

09/2007 - 08/2008

- Monitoring daily production activities and generating reports
- Conducting inspection for various process on a given line

Achievements

Participated in reducing cycle time reduction in team for KVNA UPPER METAL through kaizen.
