Career Objective

- To work in a firm with a professional work driven environment where I can utilize and apply my knowledge, skills which would enable me as a fresh graduate to grow while fulfilling organizational goals.
- I want to work in a responsible and challenging position and contribute maximum to the success as an engineer.

Professional Experience

❖ Presently I am working in Pacific Cyber Technology PVT LTD. Bhimpore, Daman as a Production Engineer (Production Department) from January-2017 to till now.

- Check the production plan and align the resources properly like: manpower, material and consumable items on line based on production planned model requirements.
- Hourly input output monitoring, skill matrix sheet preparation and daily maintain check sheet of ESD (wristband, shoes).
- Report on online material scrap/loss quantity on real time basis.
- Overall supervision on plant activities during shift.
- Maintaining 5S, 3R & Visual management on line.
- Knowledge of production processer like: SOP, WIP, check point and skilled manpower allocation key stages.
- Knowledge of the require QC inspection process according to quality plan of running model and standards of the quality system.
- Guide and supervise operators for product identification, NG products statistics and control, manage materials and feedback of abnormality.
- To check the entire work as according to plan.
- Promptly reflect actual work situation to superior level and propose suggestions for reference.
- Complete the production plan, improve production efficiency and improve line product quality.
- Prepare the daily production report with breakdown details and submit to floor incharge for verifications.
- Actively participate the inventory counting the month End.
