ABOUT US

American Spring & Pressing Works Pvt. Ltd., popularly known as ASPEE, a pioneer in the field of agricultural equipment, was established in 1946.

The company had a humble beginning, starting its manufacturing journey with the production of a Hand Rotary Duster. Building on the power of innovation and research, it didn't take long for ASPEE to start developing sophisticated and technologically advanced equipment specifically designed for the Indian and international markets. Before we knew it, ASPEE emerged as one of the undisputed market leaders in the field of agricultural sprayers and dusters.

The ASPEE range comprises Hydraulic Power Sprayers, Mist Blowers cum Dusters, Tractamount Sprayers- also known as Tractor Trailed Sprayers, Foot & Rocker Sprayers, Hand Compression Sprayers, Continuous Knapsack Type Sprayers, Small Hand Sprayers and Threshers for a wide variety of crops.

The company also manufactures a diverse range of spraying accessories like nozzles, spray guns, telescopic lances, spray booms, and spray rigs suitable for every application, giving farmers a holistic technological experience while farming.

The ASPEE Group has within its fold the following companies:-

- American Spring & Pressing Works Pvt. Ltd., Mumbai
- ASPEE Agro Equipment Pvt. Ltd., Billimora

Having entered into realty and other businesses, the company has decided that from 1st April 2023, the manufacturing activities of agricultural equipment, such as sprayers and farm mechanized products, are most suitable to be headed by the specialized group company. This decision will help the enterprise focus more cohesively and extensively on agricultural products, enabling ASPEE to expand into other businesses. With effect from 1st April 2023, all agricultural products will be manufactured and marketed by ASPEE Agro Equipment Pvt. Ltd.

With a total strength of over 500 employees, the ASPEE Group of Companies has revolutionized the functioning of an agricultural company. To add to this achievement, ASPEE has several "firsts" to its credit:

- The first sprayer company to obtain an ISI Mark Bureau of Indian Standards (BIS).
- The first company to make sprayers in India as per the specifications of the World Health Organization (WHO).
- The first company to receive ISO 9001:2000 Certification from Det Norske Veritas, The Netherlands. As of today, we are certified ISO 9001: 2015 by BSI.
- **The first company to start a college of horticulture and forestry, popularly known as-**

ASPEE College of Horticulture and Forestry

ASPEE Agri-Business Management Institute, both under Navsari Agriculture University, Gujarat.

In 2016, the company inaugurated another college, namely the Aspee Shaklam Bio-technology College at Surat under Navsari Agriculture University, Gujarat.

In 2020, another milestone was achieved when Aspee College of Agriculture was started at Porbandar under Junagadh Agriculture University, Gujarat.

In addition to the above Aspee has also helped made following college and schools:-

- Shri M.D. Shah Mahila College, Malad, Mumbai.
- Aspee Nutan Academy, Malad, Mumbai.
- Aspee High School, Uchat, Dist. Palghar, Maharashtra.
- Aspee Children Academy, Uchat, Dist. Palghar, Maharashtra.
- Aspee Kanya Vidhyalya, Antalya, Billimora, Gujarat.

To maintain the high standards and quality expectations warranted by these achievements, ASPEE leaves no stone unturned to focus on R&D. The company has its research department which continuously develops new products and builds improvements within existing products, completely based on suggestions and feedback received from our customers.

ASPEE has a widespread marketing network of over 2000 distributors and dealers in India to enable the widespread availability of equipment, spare parts, and customer service for every customer. ASPEE regularly trains its dealers to provide quick and efficient after-sales services.

In terms of the quality and performance of agricultural products, ASPEE has always stood out amongst its competitors. ASPEE products are manufactured from virgin raw materials, making the quality exceptional. Along with these standards, our products are tested at every level of the manufacturing process to ensure that their quality is up to the mark. Every piece of equipment and its accessory is calibrated to ensure the desired performance. This is what makes ASPEE every farmer's prime preference.

ASPEE has made its presence felt in the international market by exporting equipment to various countries such as the Middle East, East Africa, the Far East, Iran, Iraq, South Africa, Australia, New Zealand, etc. ASPEE plays a vital role in serving agriculturists by supporting farmer-oriented research projects. For this purpose ASPEE, along with its distributors, established the ASPEE Agricultural Research & Development Foundation. Having created a fund to the tune of Rs. 24 Crores, the Foundation rewards students of agriculture across India each year, by way of awarding gold medals and scholarships.

ASPEE also gives three ASPEE L. M. Patel Farmers of The Year Awards to deserving farmers worth Rs. 1 Lakh each, in memory of its founder Late Shri. L. M. Patel. Of the 3 awards given, one is reserved for a Women Farmer. The Foundation has also established a demo farm for the purpose of research and training in order to deliver more benefits to farmers. This farm is located at Tarsia, near Mumbai, and is spread across 48 acres. The farm is equipped with all modern facilities like Tissue Culture Lab, Library, testing facilities, and more.

Thus, it's evident that ASPEE is not only in the business of generating income, but also giving back to the society that fuels our growth. ASPEE enjoys its own identity and popularity in the hearts of farmers, lives up to its promise of delivering the best quality of agriculture equipment, and leverages its resources to contribute to society.

ASPEE L.M. PATEL FARMER OF THE YEAR AWARD

In memory of late Shri L. M. Patel, the founder of Aspee Group of Companies, ASPEE gives 3 awards every year known as ASPEE L. M. PATEL FARMER OF THE YEAR AWARD each carrying a cash prize of Rs. 1 lakh, a trophy and a citation in the following 3 categories:

- Horticulture Category
- Winter Farming Category
- Woman Farmer Category

Any Indian farmer who has attained towering heights in the area of specialization announced by the Aspee Group by optimally using land, water, manpower and serving as a role model in the farming community is considered eligible for the award.

The awards are presented at a well organized function every year. The interested farmer should write to Aspee at the following address or visit our website: www.aspee.com
